Cultural Inquiry Process (CIP) Overview Diagram

Step 1: Identify puzzlement
Step 2: State what is known
Step 3: Consider CIP questions about cultural influences
Step 4: Gather and analyze information
Step 5: Develop and implement intervention(s)
Step 6: Monitor the process
Step 7: Report findings

- Carefully read all the Step 5 pages
- Consider which cultural influences (described in the CIP questions) might be affecting the puzzlement identified in Step 1
- Identify potentially relevant cultural influence(s) by selecting one or more CIP question to examine

- Gather and analyze information pertinent to the cultural influence(s) you identified in Step 3
- Examine your findings and determine whether the cultural influences(s) you chose in Step 3 are relevant to your puzzlement
- Continue to gather and analyze information and to reexamine the cultural influences described in the Step 3 CIP questions until you understand the cultural influence(s) that are relevant to your puzzlement
